SCIENTIFIC PROGRAM

Friday, 16 February

13:30 - 13:50 Official opening

*Dr. Octavian Bucur (General Director of the Genomics Research-Development Institute),
Conf. Dr. Viorica Rădoi, Dr. Mircea Dediu*

Welcome message

13:50 - 15:20 SESSION I – OncoGenetica (I)

Chair: Conf. Dr. Viorica Rădoi

13:50 - 14:10 Epigenetic regulation in cancer - the potential role of “epi-drugs” in oncology

Conf. Dr. Viorica Rădoi

14:10 - 14:30 Challenges in the interpretation of BRCA variants

Dr. Onda-Tabita Călugăru

14:30 - 14:50 There is hereditary breast cancer beyond BRCA1 and BRCA2 - rare genetic syndromes of predisposition to breast cancer

Conf. Dr. Adrian Trifa, Dr. Iulia Perva, Dr. Iulia Simina, Dr. Cătălin Munteanu

14:50 - 15:10 NIPT and maternal malignacy

Şef Lucrări Dr. Lucian Pop

15:10 - 15:20 Q&A

15:20 - 16:00 Lunch Break

16:00 - 16:30 Sattelite Symposium Eli Lilly

Abemaciclib in the treatment of mBC &eBC

Dr. Mircea Dediu

16:30 - 17:40 SESSION II – Surgery indications in patients with high genetical risk

Chair: Prof. Dr. Alexandru Blidaru

16:30 - 16:50 Prophylactic contralateral mastectomy in breast cancer patients

Dr. Aniela Noditj, Prof. Dr. Alexandru Blidaru

16:50 - 17:10 Immediate breast reconstruction using alloplastic materials

Dr. Linda Cernodolea Kanaan, Prof. Dr. Alexandru Blidaru

17:10 - 17:30 Prophylactic gynecological procedures

Dr. Mihaela Alexandra Radu, Prof. Dr. Alexandru Blidaru

17:30 - 17:40 Q&A

17:40 - 18:10 Sattelite Symposium Roche

Tecentriq in eNSCLC: the power to extend

Dr Mircea Dediu

18:10 - 18:30 Break

18:30 - 19:40 Session III – Impact of predictive biomarkers in the treatment of solid tumors

Chair: Conf. Dr. Dana Stănculeanu

18:30 - 18:50 Precision medicine in the treatment of colangiocarcinoma

Dr. Răzvan Curcă

18:50 - 19:10 BRCA status assessment across various tumor locations: what for now and what for the future ?

Prof. Dr. Șerban Negru

19:10- 19:30 Impact of predictive biomarkers in breast cancer

Conf. Dr. Dana Stănculeanu

19:30 - 19:40 Q&A

Saturday, 17 February

09:00 - 10:30 SESSION IV – Personalized treatment choice in solid tumors (I)

Chair: *Dr. Mircea Dediu*

09:00 - 09:20 Various options for genomic testing in breast cancer : how to choose and how to use?

Dr. Dragoş Median

09:20 - 09.:40 How to refine the NSCLC treatment according to the PD-L1 expression !

Prof. Dr. Laura Mazilu

09:40 - 10:00 Implementing biomarker assessment in the landscape of urinary bladder approach

Conf. Dr. Laurenţia Galeş

10:00-10:20 Is gastric cancer moving towards a personalized treatment ?

Dr. Mircea Dediu

10:20-10:30 Q&A

10:30-10:45 Sattelite Symposium Servier Pharma

Management of metastatic colorectal patients in 3rd line

Dr. Mircea Dediu

10:45 - 11:00 Break

11:00 - 11:15 Sattelite Symposium Merck

BAVENCIO: Extending survival for patients with advanced urothelial carcinoma

Dr. Mircea Dediu

11:15 - 13:05 Session V – OncoGenetica (II)

Chair: *Conf. Dr. Viorica Rădoi*

11:15- 11:35 The role of a RCMG in the multidisciplinary and personalized approach to the oncological patient - results and perspectives within RCMG Dolj

Dr. Răzvan Pleșea

11:35- 11:55 Genetic factors involved in the etiopathology of skin cancers

Dr. Andra Dan, Conf. Dr. Viorica Rădoi

11:55- 12:15 The profile of genetic mutations in women diagnosed with gynecological cancers

Dr. Miruna Gug, Prof. Dr. Nicoleta Andreescu

12:15- 12:35 MiR - MiRacle diagnostic in oncology?

Dr. Iulian Hotinceanu

12:35- 12:55 Non-BRCA pathogenic variants identified in breast and ovarian cancer patients from Western Romania

Conf. Dr. Cristina Gug, Dr. Miruna Gug

12:55- 13:05 Q&A

13:05- 13:35 Sattelite Symposium AstraZeneca (1)

Standards of therapy in NSCLC and SCLC

Dr. Mircea Dediu

13:35- 14:05 Sattelite Symposium AstraZeneca (2)

The role and value of molecular testing in oncology

Conf. Dr. Maria Olinca

14:05 - 14:45 Lunch Break

14:45- 16:15 SESSION VI – Contribution of various genomic and genetic detection in the treatment of cancers

Moderator: Conf. Dr. Adina Croitoru

14:45- 15:05 Relevance of MSI status in the treatment of digestive cancers

Conf. Dr. Adina Croitoru, Dr. Ioana Dinu, Dr. Irina Cazacu, Dr. Irina Sandra

15:05- 15:25 Confirmed and promising predictive biomarkers in ovarian and uterine cancers

Conf. Dr. Michael Schenker

15:25- 15:45 Updates in genetic testing of malignant melanoma

Asist. Univ. Dr. Cerasela Paraschiv

15:45- 16:05 Pathways to Progress: Unveiling the Latest Insights and Advancements in Lynch Syndrome Research from 2023 - a scientific review

Asist. Univ. Dr. Oana Voinea

16:05- 16:15 Q&A

16:15 Official Closure
